

The Argument

By The Mad GM ([original post](#))

A young couple seems happy when you first see them in the morning. By lunch they seem tense. They start sniping each other with nasty comments, eventually arguing loudly and viciously, bringing up embarrassing personal details and shouting them for the world to hear. Eventually, one of them leaves the hotel saying they never want to see the other person, only to die in a freak accident (hit by a car in the parking lot, struck by lightning, part of the hotel sign falls on their head, etc). The one that remains is inconsolable, and commits suicide in a obvious and public way (jumping from a high balcony, swallowing a gun, etc). The next day a different couple seems to be repeating the pattern, possibly even some key phrases.
