

# Byron

By Marcus The Impudite([Original Post](#))

A mysterious young fellow most people assume is a teenage run away. Remarkably clean-cut and well mannered for a teen of this day and age, he pays his rent on time and doesn't cause trouble, so the hotel staff and the other "guests" generally have no problem with him. No one knows where he gets his money, not that anyone here cares. He owns an impressive collection of swords, knives, polearms, and axes, all of which look too authentic to be cheap replicas. In his bookshelf is a an equally impressive collection of high school year books from different schools around the country and from decades ranging from the 1950s to the 80s and 90s. If leafed through thoroughly enough, you'll find his picture in each and every one of them, looking much the same as he does today!
