

Cleft

By Basil ([original post](#))

Young guy, in his early 20's, tall and well muscled. He has a cleft palate (sp), surgically repaired but still clearly visible; except for this, he's quite handsome.

Odd thing is, if you talk to other residents of the hotel, none of the hetero women nor bi/gay men remember him as having a scar of any sort. They see the scar when "Cleft" is in view, they just don't remember it. This doesn't apply to anyone not living in the hotel, but it does apply to even the most recent arrival.
