

# The Faker

By Killer Shrike ([original post](#))

This person seems to fit in fine with the other inmates....er "guests"....of the hotel, but unlike some of the other obvious loons they just appear to be odd in a subtle, unspecifiable way.

In reality they are actually a relatively normal person, hiding out among the freaks. What are they hiding from exactly? The kind of people that would search high and low, but never think to look for them in such a dive - white collar criminals perhaps.

While avoiding notice, they are secretly working on a plan to get revenge on the enemies they hide from. In the meantime, they suspect the PC's of being hitmen hired to find them and might take appropriate action.
