

# The Man Who Wasn't There

By Mr. Negative ([original post](#))

One of the rooms is obviously occupied. You can hear the man inside talking, showering, typing, and watching TV. He never answers the door, or the phone. No one ever sees him enter or leave. When housekeeping enters the room, it is always empty. Sometimes the bathroom is still humid from the shower, or the bedsheets are still warm from being slept in. The people downstairs can hear him walking on the floor. People have even heard the door being unlocked and opened, but have never opened their doors quickly enough to see more than the door shutting behind him.
