

Jotnar

Rapacious beings who have settled on several worlds, the Jotnar are currently at war with [Asgard](#). They come in many sizes, some are no larger than a human, while others tower over a man, and are a match for Asgardian battle-armored troops.

Jotnar (sing. *Jotun*) are the descendants of the Ymir, a similar race destroyed in ancient times by the ancestors of [Borr](#) and [Odin](#).

A few Jotnar are actually no different from [Asgardr](#) and use their package deal. It is suggested that most Jotnar use the Ogre and Troll from **Monsters Minions and Marauders** for statistics. Bigger Jotnar can be drawn from Hill Giants and even Frost and Fire Giants from **MMM**. Remove any magic from such characters, and replace it with high-tech guns and gear.
