Sequence of Play

Setup

If using a monster and human first, decide which to use first. If a human force is present, no monster has a military strike phase. All human units on the same side must be within 6" of the table edge and 24" away from enemy monsters if possible.

Initiative

Add unspent command points if only using humans. If using humans and a monster, add either wounds lost or units destroyed in the previous turn, whichever is higher.

Atomic Power

Humans use Command Points

Phases

1. Orders / Military Strike
2. Movement
3. Ranged Combat
4. Close Combat
5. Reinforcements / Recovery

Play Aids

- HTML Monster creation page - Written in Javascript. Create a monster online. Currently doesn't export or save the character
- Monster Creation Sheet - Works out the points cost for you - an Excel spreadsheet
