

Dagger 'Instakill'/Gutted like a fish.

As more players add daggers and throwing knives to their kit it has been requested that these get their own special rules and use.

The 'Instakill'

- Standard LARP Daggers (Max 45cm)
- Coreless throwing weapons - knives etc (Max 45cm).

As unlikely as it may be, if you have a dagger and manage to get behind someone unawares, you can attempt the Instakill. The dagger must be dragged across your opponents stomach from left to right (or right to left) with a lusty cry of "**instakill!**", thus disembowelling them.

The Instakill ignores all HP! You get gutted, you is dead.
