Take on a challenge by yourself so that others don't have to.

#### Neutral/Artistic

Make a choice based solely on aesthetics instead of good sense.

## BONDS

Fill in at least one with the name of a companion, or write your own.

\_\_\_\_\_ constantly needs my protection. I can't wait for the day he/she would prove me wrong.

I wish \_\_\_\_\_ would stop being so pragmatic and show me his/her artistic side.

\_\_\_\_\_ and I share the same animosity against \_\_\_\_\_. Someday we'll inflict them a major hit together.

## STARTING MOVES

\* On a 7-9, you draw unwanted attention on you. Your allies take +1 Forward but you get -1 Forward.

#### × Parry

While you wear no armor and wield a weapon, take +1 armor.

## X Wardance

When you find the pulse of a battle and slip into your wardance, roll +CHA.

- \* On a 10+, Hold 3 Flow.

to a trance-like dance-the GM makes a hard move against you.

As long as you hold Flow, you are wardancing. You can spend Flow to activate the wardance style moves you know.

Choose one of these to start with:

## Shadow Coils

Wardance style

While you **perform a dance of erratic but fluid movements**, spend 1 Flow to move through foe and fray without endangering yourself and take +1 Forward to Defend.

Rain of Thorns

Wardance style

When you **lunge weapon first**, spend Flow to add that amount Piercing tag to your attack.

## BACKGROUND

#### Muse

Something inspires you greatly and gives you purpose and drive when you dance. Say what and hold 1 extra flow when you use the Wardance move.

When you are wardancing, the spirit of a deceased wardancer enters your body and seems to be dictating your movements. While you hold Flow, you are immune to mind control and can hit insubstantial creatures as if they were flesh.

### Not by choice

You were forced to walk the path of the wardancer by necessity or otherwise. While your brothers are loud and proud, you go unnoticed and strike unexpectedly. Replace *All eyes on me* by:

#### Camouflage

When you keep still in natural surroundings, enemies never spot you until you make a movement.
